Listen to the Future

1

Use a plastic wig to loosen the panel at the location of the arrows.

2

Remove the two screws at the location of the arrows. Now you can gently remove the panel.

3

Loosen the screws at the location of the arrows. Remove the original radio.

4

Place the 2 - Din metal bracket.

5

Place the headunit and connect all the wiring. Gently replace all the panels in reverse order.

***Connect all of the needed wiring harnesses and check all the connections carefully.***
